Why AIS Hotel Wi-Fi Is the Right Choice for Your Hotel

Feature	AIS Hotel Wi-Fi	Traditional Wi-Fi Solution
Internet Quality	Dedicated AIS Business Internet with guaranteed SLA	Home-used link, unstable during peak hours
Wi-Fi Management	Centralized management with live monitoring and control	No unified dashboard or control
Log File & Security	Compliant with Thai law, data encrypted and stored securely in cloud	Manual on-device storage
PMS Integration	Connects with leading PMS platforms (Opera, Comanche, Smart Finder)	No PMS Integration
Investment	Pay monthly with equipment, maintenance, and support included	High upfront cost for devices, setup, and maintenance

"Seamlessly integrates with world-class Hotel PMS to elevate the guest experience to a new standard"

COMANCHE

ORACLE HOSPITALITY

SMART FINDER
